GOAL: Investigate incidents of abuse, neglect and violation of rights.

OBJECTIVE 1. Investigate service requests with the focus on mental health care and treatment, medication issues, and appropriate discharge planning and release from residential care or treatment facilities. Other disability-related, institutional issues can be investigated, as resources and staff time allow.

TARGET POPULATION: Persons with mental illness residing in public or private facilities that provide care or treatment, such as private and public general hospitals, including emergency rooms; public and private psychiatric wards; public and private institutions; group homes, and jails and prisons. Service priority will be given to persons with significant mental illness who are inpatients or residents of public or private care and treatment facilities. Also, target individuals with co-occurring disorders.

EXPECTED TARGET: 75 investigations

EXPECTED OUTCOME: 75 service requests investigated.

OBJECTIVE MET OR NOT MET: [Note: This information will be provided in the PPR]

OBJECTIVE 2. Investigate service requests and participate in special projects involving the use of seclusion and restraint in public or private facilities that provide mental health care and treatment, including PRTFs, and in school settings.

TARGET POPULATION: Persons with mental illness and emotional impairments residing in public or private facilities that provide care or treatment, and children with emotional disturbance attending elementary and secondary schools.

EXPECTED TARGET: 5 investigations

EXPECTED OUTCOME: 5 service requests investigated.

OBJECTIVE MET OR NOT MET: [Note: This information will be provided in the PPR]
OBJECTIVE 3. Investigate special education service requests.

TARGET POPULATION: PAIMI-eligible children with significant emotional impairment.

EXPECTED TARGET: 25 investigations

EXPECTED OUTCOME: 25 service requests investigated.

OBJECTIVE MET OR NOT MET: [Note: This information will be provided in the PPR]

OBJECTIVE 4. Provide legal representation to persons with mental illness involving Supplemental Security Income (SSI) and Social Security Disability Insurance (SSDI) appeals beginning at the Administrative Hearing level.

TARGET POPULATION: PAIMI-eligible clients seeking assistance in overcoming barriers to accessing or retaining financial benefits/entitlements who are residing in a community setting, including one’s own home, or who are residing in or have been recently discharged from a public or private care and treatment facility.

EXPECTED TARGET: Accept 5 new service requests for legal representation.

EXPECTED OUTCOME: Legal representation provided to 5 individuals appealing their SSI/SSDI denials.

OBJECTIVE MET OR NOT MET: [Note: This information will be provided in the PPR]

GOAL: Collaborate with state agencies, other advocacy organizations, and facilities that provide care and treatment to PAIMI-eligible clients in efforts to implement changes in policies and practices that impact persons with mental illness.

OBJECTIVE 1. Participate on various boards, committees and workgroups involved with systemic change in the mental health service delivery system.

TARGET POPULATION: PAIMI-eligible clients residing in public or private facilities that provide care and treatment, and in a community setting including one’s own home.

EXPECTED TARGET: PAIMI Program staff will participate on boards, committees and workgroups on the state and local levels.

EXPECTED OUTCOME: PAIMI Program staff participates on state and local boards, committees, and workgroups.

OBJECTIVE MET OR NOT MET: [Note: This information will be provided in the PPR]
**OBJECTIVE 2.** Continue to develop a Memorandum of Understanding (MOU) with psychiatric residential treatment facilities that serve youth under the age of 21 (PRTFs) and referring agencies (Departments of Corrections and Social Services) regarding the PAIMI program’s access authority to facilities, clients and records.

TARGET POPULATION: PAIMI-eligible individuals residing in PRTFs.

EXPECTED TARGET: Work with the PRTFs and referring agencies to develop and implement the MOU.

EXPECTED OUTCOME: A MOU is developed and implemented.

OBJECTIVE MET OR NOT MET: [Note: This information will be provided on the PPR]

**GOAL:** PAIMI-eligible individuals and their families will receive information regarding disability rights and available services through public education/constituency training, outreach, public awareness activities, and information and referral services.

**OBJECTIVE 1.** Provide information on disability rights, the PAIMI Program, and general health and mental health service issues, to PAIMI-eligible individuals, family members and to the public at large.

a. TARGET POPULATION: Persons with mental illness, their family members and the public at large.

EXPECTED TARGET: Disseminate 5,000 program brochures and rights information.

EXPECTED OUTCOME: 5,000 program brochures and rights information disseminated.

OBJECTIVE MET OR NOT MET: [Note: This information will be provided on the PPR]

b. TARGET POPULATION: Persons with mental illness, their family members and the public at large.

EXPECTED TARGET: Provide information and referral services to 200 callers.

EXPECTED OUTCOME: Information and referral services provided to 200 callers.

OBJECTIVE MET OR NOT MET: [Note: This information will be provided on the PPR]
OBJECTIVE 2. Conduct outreach activities throughout the state providing information on the PAIMI Program, its services, and rights of individuals with mental illness.

TARGET POPULATION: Individuals with mental illness, family members, and service providers living in the state.

EXPECTED TARGET: Complete 45 outreach activities.

EXPECTED OUTCOME: 45 outreach activities completed.

OBJECTIVE MET OR NOT MET: [Note: This information will be provided on the PPR]

OBJECTIVE 3. Conduct public education/constituency training activities to PAIMI-eligible individuals and their families focusing on relevant topics.

TARGET POPULATION: Persons with mental illness, family members and other interested individuals, and to the public at large.

EXPECTED TARGET: Complete 6 training activities.

EXPECTED OUTCOME: 6 training activities completed.

OBJECTIVE MET OR NOT MET: [Note: This information will be provided on the PPR]

OBJECTIVE 4. Produce an anti-stigma awareness video focusing on youth.

TARGET POPULATION: Persons with mental illness, family members, other interested individuals, and to the public at large.

EXPECTED TARGET: An anti-stigma awareness youth video will be produced and shown during the 2013 Yankton Mental Wellness Conference.

EXPECTED OUTCOME: The anti-stigma video was presented at the 2013 Yankton Mental Wellness Conference.

OBJECTIVE MET OR NOT MET: [Note: This information will be provided on the PPR]
